Konner Pierce

Studying Game and Multimedia Design

Boise

Summary

Hello, I am Konner Pierce and I am a new Sophomore enrolled at Boise State University as a GIMM major. I have entry-level game design and programming skills with two minor and one major project done in Unity. From this simulated work environment, I currently have one year of experience doing game and multimedia design for a client in a team of other developers.

Outside of school, I have around three and a half years of total work experience. With specifically four months working in technology retail. From my work experience have learned how to work in a fast-paced environment, customer service professionalism, technology troubleshooting, and how to work on customer's devices.

My personal hobbies are building computers, custom mechanical keyboards, gaming, and doing research on upcoming computer hardware, software, and games via YouTube or news articles.

Experience

Staples Stores
Technology Sales Associate

March 2022 - Present (4 months)

Boise, Idaho, United States

My responsibilities as a technology associate included greeting customers at the door, cashiering, training new employees, helping customers find the right items and technology that suits their needs, and selling customers on Staples plans and setup services. I did troubleshooting on customer devices they brought in and did requested work such as data transfers, pc tune-ups, virus removal, windows reset, and laptop battery replacement.

Pierce Auto Center
Lot Attendant

June 2018 - August 2021 (3 years 3 months)

Sagle, Idaho, United States

Responsibilities included washing cars, moving cars around the lot, cleaning the dealership and shop, interacting and helping customers, replacing and

setting up computers, installing and setting up routers, and being responsible for the lot's car keys.
